Dr. Chuck,

Thanks so much for everything in 539. I learned SO much! I honestly was absolutely petrified of programming before 502 and liked it so much I felt confident going into 539. And look what I can do now! (abby-bedford.appspot.com)

Be sure to e-mail me when you figure out how to do the blog/RSS import thing like I did with that Javascript I found!

Again, thanks for making programming not scary!

Abby
